Coffee flavouring

Ideal for livening up coffee at home or in specialist coffee shops

- Increasingly out-of-home coffee is being offered with a range of flavours (Costa, Starbucks, etc)
- In-home coffee machines mean more people customise their coffee
- Chefs have been endorsing the syrups for wider use – hence the connection between coffee and cooking
- Flavours can help segment markets either by season, age, demographics or occasion

Beverages

- Use to make Frappes^o
(a milk and ice based drink flavoured with Mint Choc Caramel.....etc)
- Frappes^o are becoming increasingly popular and could soon warrant a separate product positioning
- Whittard of Chelsea, Costa, Starbucks etc. market these products to make at home
- Syrups make great milkshakes too
